STATEMENT OF OBJECTS AND REASONS.

The Insurance Act, 1938 (IV of 1938), was last amended in 1941. Experience gained in the administration of the Act during the succeeding years brought to light several flaws and lacunae in it. With a view to remedying these defects, a Bill incorporating the necessary amendments was introduced in the Autumn Session (1944) of the Legislative Assembly. That Bill was referred to a Select Committee whose Report was later presented to the Assembly in the Budget Session of 1945. The Bill, however, could not be proceeded with further, and with the expiration of the Assembly, it has lapsed.

2. It is now proposed to amend the Insurance Act, so as to remove those defects and also to secure greater financial stability of insurance companies by incorporating the provisions contained in the original Bill as modified by the Select Committee. Certain alterations mostly of a minor nature including those necessary to rectify defects which have come to light since the introduction of the above-mentioned Bill in 1944 have been made, and certain provisions requiring further consideration have been omitted.

3. Brief explanatory notes on the several clauses of the Amending Bill are given in the annexed Notes on Clauses.

Notes on Clauses.

Clause 2.—While conditional assignees are recognised in section 38(7), it was not intended that such assignees should have the full rights of policy-holders under the Act, and sub-clause (*a*) makes this point clear.

Sub-clause (*b*) removes from section 2(15), the condition that the Superintendent of Insurance shall be a qualified actuary.

Clause 3.—Sub-clause (*a*) is to clarify the position that registration for one class of business only does not entitle an insurer to embark on any other class of insurance business without further registration for that class of insurance business also.

Sub-clause (*b*) clarifies the position regarding payment of the prescribed fee for registration of insurers.

Complaints have been received on tardy settlement of claims even when claims have been supported by a final judgment of the Courts. Sub-clauses (*c*) to (*e*) will enable registration to be cancelled for such delays, revival being contemplated where the Superintendent of Insurance is satisfied that due claims have been honoured. These sub-clauses also provide for cancellation of registration of insurers for failing to comply with an order made by the Superintendent of Insurance regarding the premium rates, etc., in respect of life insurance business and also for revival of the registration after compliance with the order.

Sub-clause (*f*) applies the provisions of section 3(5D) to all insurance companies, and gives the Superintendent of Insurance discretion whether to apply for winding up or not.

There are certain provisions of the Act other than those in section 3 which should be complied with before an insurer is registered, and sub-clause (*g*) attracts those provisions also.

Sub-clause (*h*) provides for issue of duplicate certificates of registration of insurers on payment of a fee under certain circumstances.

Clause 4.—This clause enables the Superintendent of Insurance to order an insurer after reference to another actuary to modify his rates, etc., in respect of life insurance business which are not in his opinion workable or sound.

Clauses 5 & 28.—Sections 4 and 65 are being amended to avoid undesirable competition between insurers and provident societies. Co-operative Life Insurance Societies are exempted.

Clauses 6 & 32.—The Act does not at present prohibit identity of name as between one provident society and another and as between insurers and provident societies; these amendments remove this lacuna.

Clause 7.—By mutual arrangements with certain Indian States, deposits made under this Act, has been accepted as cover in the State, and *vice versa*. It is a corollary of this arrangement that deposits in one area should not be returned without the agreement of the insurance authorities of the other.

Clauses 8 & 47.—The amendment (*a*) makes it clear that the life insurance fund should be separately invested and kept apart from the other assets of the insurer and also provides for annual submission and statements showing such assets; and (*b*) provides that a person carrying on life insurance business shall not be entitled to embark on other classes of insurance business unless the Superintendent of Insurance is satisfied that the life insurance fund is adequate to meet all his liabilities on policies of life insurance maturing for payment. Clause 47 provides for the non-publication of the summary of these statements in the annual Year Book.

Clause 9.—This amendment brings out clearly the intention of clause (*c*) in section 11(*1*).

Clause 10.—Amendment (*a*) provides for submission as returns, of accounts, etc., prepared under section 13(*5*), and (*b*) makes it obligatory on an auditor or actuary to sign (in hand), one copy of the accounts or valuation returns, as the case may be, furnished under section 15(*1*).

Clause 11.—Amendment (*a*) enables an auditor as defined in the Act to audit the required statements, and (*b*) makes it clear that the provisions of the regulations in the Third Schedule also apply to the revenue account in respect of business transacted in India by the insurers mentioned in section 16.

Clause 12.—This amendment is formal and consequential to an insertion in section 17 made in 1939.

Clauses 13, 16 & 47.—These amendments have the effect of making the provisions of section 21 apply to the statements required by section 28. The last clause provides for the non-publication of the summary of these statements in the annual Year Book.

Clause 14.—The first amendment will enable an investigation and valuation to be ordered as at a date later than that of the original investigation or valuation.

Experience has shown a tendency to delay submission of the necessary documents to the investigator, and sub-clause (*a*) (*ii*) gives the Superintendent of Insurance, power to impose a reasonable limit of time for this purpose.

Sub-clause (*b*) applies the relevant provisions of sections 13, 15 and 16 to an investigation under section 22 and also provides for submission of these returns within a time to be specified by the Superintendent of Insurance.

Clause 15.—Sub-clauses (*a*) and (*b*) are formal.

Sub-clause (*b*) makes an insertion to provide that only loans on policies which represent liability undertaken by him can be taken into account by way of reducing the amount of his investments.

Sub-clause (*c*) while requiring liabilities accepted by way of reassurance to be taken in account when calculating the amount of investments, permits liabilities so ceded to be deducted in making the calculation.

Clause 17.—This clause provides for the early repayment of loans which at the time the loan transaction was effected did not contravene section 29, but which by reason of some later event infringe that section.

Clause 18.—This clause extends section 31 to cover the case of the assets of a British Indian insurer in an Indian State.

Clause 19.—As section 33 is drawn, it would seem that if the Superintendent of Insurance himself makes the investigation he cannot at any stage utilise the services of an auditor or actuary to assist him. The first part of this amendment adjusts this position; to the second part of the amendment the note on sub-clause (*a*)(*ii*) of clause 14 is applicable.

Clause 20.—It was not intended that a nomination citing section 39 of the Act in favour of a wife or child should attract the provisions of the Married Women's Property Act, 1874 and this amendment is to secure the desired position.

Clause 21.—This clause amends section 40 for the following purposes:—

(*a*) to avoid duplicate licensing of insurance agents operating in Indian States with which Government has entered into mutual arrangement as to the administration of insurance law;

Sub-clauses (*b*) and (*c*) provide for payment under certain circumstances of a part of the commission to an agent who helps to revive a lapsed policy even though he may be different from the agent who originally introduced the policy.

Clause 22.—This clause enhances the penalty for contravention of the provision relating to prohibition of rebates.

Clauses 23 and 24.—It is considered undesirable that a life insurance agent or an employer of insurance agents should be a director of any company transacting life insurance business, and provision is made prohibiting this.

Clause 25.—Unpaid-up share capital is not necessarily a realisable asset, and this clause provides that unpaid-up share capital shall not be taken into account in determining the solvency or otherwise of an insurer or provident society.

Clauses 26 and 27.—In sanctioning a scheme of partial winding up, it is desirable that the Court should have power to make orders in respect of the portion of the deposits affected. Clause 26 inserts provision accordingly and clause 27 makes a consequential amendment.

Clauses 29, 30 and 34.—These clauses apply to provident societies certain provisions applicable to insurers which are either in the Act or are to be inserted therein by this Bill. The last clause is consequential to clause 30.

Clauses 31 and 43.—The references to "gross premium" in sections 73 and 98 have given rise to difficulties in checking whether deposits have been properly made; in future deposit will be based on the "premium income as shown in the revenue account".

Clause 33.—An insertion is made in section 81 requiring valuation to be made as at the 31st December.

Clause 35.—Sub-clause (*a*) widens the scope of investment for provident societies by substituting "approved societies" as defined in the Act for "Government securities".

Sub-clause (*b*) makes an insertion to enable societies to comply with any other relevant insurance law by which they may be bound.

The first proviso added by sub-clause (*c*) is on the lines of the first proviso to section 29(*1*). To the second proviso added by this sub-clause the note on clause 17 applies.

Clause 36.—The change made is formal.

Clause 37.—This places the provision for inquiries into the affairs of provident societies on the lines of sub-sections (*1*), (*4*) and (*5*) of section 33 relating to insurers.

Clauses 38 and 46.—The former clause introduces provision for the transfer and amalgamation of provident societies with the sanction of the Superintendent of Insurance. The latter clause provides for appeals against his orders in such matters.

Clause 39.—This recasts section 88 (*2*)—relating to the grounds on which an application to wind up a provident society may be made—to include clauses analogous to sub-clauses (*iii*) and (*iv*) of section 53 (*2*) (*b*), which treat the question in relation to insurers.

Clause 40.—This adds a clarifying provision to the effect that sections 91 to 93 apply to all liquidators by whomsoever appointed.

Clauses 41 and 42.—These supply formal omissions.

Clause 44.—This applies section 29 (regarding loans) to co-operative life insurance societies.

Clause 45.—This is to enable the Superintendent of Insurance to make complaints after notice to the insurer concerned.

Clause 48.—This recasts regulation 7 in the Third Schedule; also amends (*i*) the form of revenue account of life insurance business requiring data as to first year premiums to be given in more detail and (*ii*) clarifies that in the forms DDD and DDDD 'total gross amounts without taking reinsurances into account' should be shown; in form DDDD, there is also a clarificatory amendment.

Final Forecast of the Sugarcane Crop of Bengal for 1945-46.

(*Note*.—On an average of the five years ending 1943-44, the area under sugarcane in Bengal has represented some 7·9 per cent. of the total area under sugarcane in India.)

Character of the season.—Since the submission of the second forecast, the weather and its effect on the crop have been, on the whole, favourable. Some damage has been caused at places by drought, heavy rains and diseases.

Area planted.—The total area planted is estimated at 323,500 acres this year as against 309,700 acres of last year. The increase is due to high prices of gur and sugar.

Total yield.—Taking 515 1/5th maunds as the normal yield of sugarcane per acre, the gross outturn for the Province is estimated at 4,898,000 tons of cane this year as against 4,220, 000 tons of last year. On the basis of gur/cane ratio of 1:10, the fixed standard for the Province as a whole, the gross outturn of cane gur is estimated at 489,800 tons this year as against 422,000 tons of last year.

Other sources of gur.—The total quantity of gur likely to be produced from date-palm juice and other sources is estimated at 121,200 tons this year as against 123,700 tons of last year.

6. The proviso to sub-section (*1*) of section 107H of the said Act shall be omitted.

STATEMENT OF OBJECTS AND REASONS.

Section 107A of the Cess Act, 1880, provides that the "acreage rate" basis of valuation shall be adopted in respect of any district which has been included by notification in Schedule G to the Act. There is no corresponding provision for a change from the "acreage rate" basis to the old "rental" basis of valuation by deleting the district from the list in the said schedule. Experience of the working of Chapter VIIA of the Act has shown that in many districts it does not secure a more equitable distribution of Cess burden on the tenure-holders and the cultivating raiyats, which was the main object of enacting this chapter in 1934, and that there are districts in which the old procedure of valuation works more equitably. It is, therefore, necessary to make it fully optional to Government to utilize in any given district the "acreage rate" or the "rental" basis of valuation, whichever appears more equitable.

The Rowlands Committee have recommended that there should be an increase in the Cess rate to make the resources of district boards more elastic. In order to enable Government to give effect to this recommendation, should it at any time see fit to do so, it is necessary to remove the maximum limits of Cess rates as provided in the Act.

The Bill has been framed with these objects in view.

By order of the Governor,
G. M. RATCLIFF,
Secy. to the Govt. of Bengal.

A license described as the Calcutta and District Consolidated Electric License, 1946, is hereby granted to The Calcutta Electric Supply Corporation, Limited, a Company registered in England under the English Companies Acts and having its registered office in London, to supply electrical energy in the area and with the powers and upon the terms and conditions specified below.

THE CALCUTTA AND DISTRICT CONSOLIDATED ELECTRIC LICENSE 1946.

License for the supply of electric energy granted by the Government under the Indian Electricity Act, 1910.

1. **Short title.**—This license may be cited as "The Calcutta and District Consolidated Electric License, 1946".

2. **Interpretation.**—The several words, terms and expressions to which by the Indian Electricity Act, 1910, or by the rules thereunder, meanings are assigned shall have in this license the same respective meanings: provided that in this license—

(*a*) "the Act" shall mean the Indian Electricity Act, 1910;

(*b*) the expression "the licensees" shall mean the said Calcutta Electric Supply Corporation, Limited, and their permitted assigns;

(*c*) the expression "deposited map" shall mean the plan of the area of supply hereinafter specified which has been deposited with the Government in pursuance of the rules under the Act, which plan is signed for the purpose of identification by the Secretary to the Government of Bengal in the Department of Commerce, Labour and Industries and by the Agent of the licensees;

(*d*) the term "unit" shall mean the quantity of energy equivalent to a current of one thousand amperes flowing under an electromotive force of one volt during one hour;

(*e*) unless otherwise stated, where roads or streets are mentioned as forming the boundary or part of the boundary of any area in this license, the premises, properties or structures abutting upon either side of such roads or streets are deemed to be within the area referred to. Where any part of a boundary is stated to be a railway, the area shall be deemed to include such part of the railway as lies along the boundary referred to. Where any part of the boundary is stated to be a railway station or passing through a railway station, the whole of such railway station premises shall be deemed to be included in the area so that the boundary will be the outer side of the station premises and lands. Where any part of a boundary is stated to be a canal or "khal" or river or stream or inlet and where the boundary line is stated to run along the same (but not where the line is stated to run accross the same) then such canal, "khal", river, stream or inlet shall be deemed to be included in the area;

(*f*) the term "large consumer" shall mean a consumer who shall agree to take from the licensees and pay for a minimum consumption of 500,000 units of energy per annum;

(*g*) the term "small consumer" shall mean a consumer who shall not so agree;

(*h*) the term "the undertaking" shall include all the undertakings which have been authorised by the licenses set out in the First Annexure hereof and which are consolidated into a single undertaking under this license.

3. **Area of supply.**—The area within which the supply of energy is authorised by this license (the area of supply under the Act) is the whole of the area bounded as set out in the Second Annexure hereof.

The boundaries of the said area are delineated in the deposited map by a heavy red line.

4. **Purpose of supply.**—The licensees are hereby authorised to supply energy.

(*a*) direct to large and small consumers within the area of supply for all puroses;

(*b*) in bulk to distributing licensees for sale by them to consumers within their respective areas of supply: provided that the distributing licensees so supplied in bulk shall not be at liberty to supply to any one consumer energy exceeding 100,000 units per annum unless with the prior permission in writing of the licensees. If such permission is refused, such consumer shall be supplied direct by the licensees;

(*c*) to small consumers within the area of supply of a distributing licensee who takes a bulk supply from the licensees, provided that the consent of the distributing licensee has been obtained to the supply to such consumers. If such distributing licensee fails or is unable to supply energy to any small consumer within his area, the licensees may proceed to supply such consumer without the consent of the distributing licensee.

5. **Compulsory works.**—The compulsory works specified in the licenses set out in the First Annexure hereof having been executed to the satisfaction of the Provincial Government, it is hereby expressly declared, in pursuance of clause (*f*) of sub-section (2) of section 3 of the Act, that Clauses I and IV of the Schedule to the Act shall be excepted from incorporation in this license.

6. **Creation of sub-areas.**—In pursuance of clause (*f*) of sub-section (*2*) of section 3 of the Act, and by way of exception to section 22 of the Act, it is hereby expressly declared that—

(*a*) the licensees shall not be under any obligation to supply energy to any small consumer in any road, street or lane in which the licensees have not already laid down or constructed low or medium pressure mains until the Provincial Government shall, after enquiry, have decided that the local demand in any sub-area created under sub-clause (*b*) hereof is sufficient to provide a reasonable return to the licensees on the expenditure incurred in giving a supply of energy to small consumers in that sub-area. On any such enquiry the licensees shall be entitled to be heard, and regard shall be had to the question whether high pressure mains for large consumers have or have not already been laid down to the sub-area concerned. Where such high pressure mains have already been laid down the licensees shall commence supply within six months after receipt of notice in that behalf from the Provincial Government and for that purpose the licensees shall construct any necessary transformer station within or near such sub-area. Where such high pressure mains as aforesaid have not previously been laid down the licensees shall commence supply within 12 months after receipt of such notice or within such longer period as the Provincial Government may fix after considering any representations made by the licensees. In the event of supply to small consumers being directed to commence in a sub-area to which no such high pressure mains have been laid down, the licensees may as their option construct a temporary generating station in such sub-area instead of laying high pressure mains to the sub-area. If it be found necessary for the licensees to apply to Government for compulsory acquisition under any law for the time being in force of any land for such transformer station or temporary generating station as hereinbefore mentioned, the licensees shall thereupon intimate the fact to the Provincial Government and the period within which the supply is to be commenced shall run from the date on which possession of the acquired land is given to the licensees provided always that if the licensees shall be prevented from commencing the supply within the time limited by reason of earthquake, flood, tempest, fire or act of God, or other causes beyond the control of the licensees, the time for the commencement of the supply shall be extended accordingly.

(*b*) the portion of the area of supply which is not covered by the low or medium pressure mains referred to in sub-clause (*a*) of this clause shall be deemed to be divided into such sub-areas as may from time to time be ordered by the Provincial Government, after enquiry in the manner provided by sub-clause (*a*) aforesaid, or approved by the Provincial Government on the application of the licensees, and each such sub-area shall for the purposes of section 22 of the Act be deemed to be the "area of supply" referred to in that section, and the provisions of section 23 of the Act regarding undue preference shall apply as if each sub-area were covered by a separate license. Any sub-area may be formed as aforesaid either before or after any requests for supply have been received from intending small consumers.

(*c*) clauses V, VI, VII, VIII and XII of the Schedule to the Act shall be deemed to be excepted in reference to all parts of the area of supply referred to in sub-clause (*b*) of this clause until the Provincial Government shall order or decide that the local demand for electric energy is sufficient to warrant the observance thereof in any sub-area as provided in sub-clause (*b*) aforesaid and shall give notice in writing of such decision to the licensees, whereupon such clauses V, VI, VII, VIII and XII of the Schedule to the Act shall apply in respect of such sub-area.

(*d*) the following sub-clause shall be substituted for sub-clause (*2*) of clause X of the Schedule to the Act, namely:—"Within six months from the date of the creation of a sub-area, the licensees shall give notice by public advertisement, in such a manner as shall be previously approved by the Provincial Government, of the method by which

they propose to charge for energy supplied to consumers and the rates at which such energy will be supplied. Where the licensees have given such notice they shall not be entitled to change the method of charging or the rates at which energy will be supplied without giving notice thereof by by public advertisement in the manner aforesaid and giving not less than one month's notice in writing or such shorter notice as the Provincial Government may deem proper of any such change to the Provincial Government and the local authority concerned and every consumer of energy who is supplied by them."

7. **Nature of supply.**—The supply to be given under this license shall be alternating current at a frequency of 50 complete cycles per second, or direct current,as follows:—

(*a*) for domestic and general purposes other than manufacturing, by a medium pressure three-phase four-wire supply at a pressure of 400 volts between phases and 230 volts between each phase and neutral, or, at the licensees' discretion, direct current at 225 or 450 volts; provided that where the maximum demand exceeds 50 kilowatts, the supply may, at the licensees' discretion, be given by a three-phase supply at a pressure of 3,300 or 6,000 volts between phases;

(*b*) for manufacturing purposes, where the maximum demand does not exceed 50 kilowatts, by a medium pressure three-phase supply at a pressure of 400 volts between phases, or, at the licensees' discretion, direct current at 450 volts;

(*c*) for manufacturing purposes, where the maximum demand exceeds 50 kilowatts, by a three-phase supply at a pressure of 3,300, 6,000, 20,000, or 33,000 volts between phases.

The pressures stated above shall be as measured at the consumers' terminals and shall be uniform, within the limits prescribed by the Indian Electricity Rules, 1937, throughout the area of supply.

(*d*) for traction by three-phase alternating or direct current at such pressures as may be arranged:

Provided that the licensees may, from time to time, with the previous consent in writing of the Provincial Government and subject to such limitations and conditions as shall be prescribed in writing by the said Government, adopt any other system or pressures of supply for the purpose of this license.

8. **Limits of rates to be charged in respect of the supply of energy.**—The rates to be charged by the licensees for energy supplied by them shall not exceed the following maxima, namely:—

(*a*) for lights and fans annas 8 per unit metered,

(*b*) for purposes other than lights and fans annas 4 per unit metered,

(*c*) in the case of a method of charge approved by the Provincial Government on the application of the licensees, in accordance with section 23, sub-sections (*3*) and (*4*) of the Act, the maximum rates shall be such as the Provincial Government may fix on approving the matter.

9. **Control of rates.**—In the event of the option of purchase exercisable on the 1st day of January, 1950, as hereinafter mentioned not being exercised, the Provincial Government may at any time thereafter appoint a Committee, constituted according to such enactment governing the control of rates of supply of electrical undertakings in India as may be in force at the time, to examine the rates of supply of the licensees with reference to principles laid down in such enactment; and if the Provincial Government approves the recommendations (or any of them) made by such a Committee, the recommendations so approved shall be binding on the licensees. No such Committee shall be appointed within five years of the acceptance by the licensees of the recommendations of an earlier Committee.

10. **Purchase of the undertaking.**—(*1*) The option of purchase given by section 7 of the Act shall be exercisable on the 1st day of January, 1950, and thereafter at the end of every subsequent period of twenty years during the subsistence of this license.

(*2*) The purchase price payable upon the exercise of the said option of purchase on the 1st day of January, 1950, shall be in accordance with section 7(*1*) of the Act, the percentage addition being 20 (except as provided below), together with a sum equivalent to one year's gross revenue (calculated as the average of the three years 1947-1949) received by the licensees for supply of energy and rent of meters and other apparatus on consumers' premises in the area previously included in the following among the licenses set out in the First Annexure hereof:—

F. ISLAM WAHEED,

Deputy Director of Agriculture, Headquarters,
for Director of Agriculture, Bengal.

Calcutta, the 19th February 1946.

DIRECTORATE OF AGRICULTURE, BENGAL.

Calcutta, the 10th December 1945.

Third Forecast of the Cotton Crop of Bengal for 1945-46.

(*Note.*—On an average of the five years ending 1943-44, the area under cotton in Bengal has represented some 0·3 per cent. and that in the Tripura State some 0·1 per cent. of the total area under cotton in India.)

There are two varieties of cotton, early and late. The early crop is chiefly grown in the Chittagong Hill Tracts and the Tripura State and to a small extent in other districts. The late crop is occasionally grown on very small areas in Bankura, Midnapore and Mymensingh.

Character of the season.—Up to the middle of October the weather was favourable for the growth of the crop in the Chittagong Hill Tracts but heavy rainfall towards the end of October had an adverse effect on the standing crop. The weather was not favourable for the crop in the Tripura State due to heavy rainfall during the monsoon. In the rest of the province it was on the whole fair till the early crop was harvested.

Area sown.—The area sown with the early variety this year is estimated at 117,343 acres as against 107,028 acres reported in both the corresponding and the final forecasts of last year. The area under cultivation of the late variety this year is estimated at 50 acres as against 60 acres shown in both the corresponding and the final forecasts of last year.

Yield.—The total yield of the early crop this year is estimated at 26,057 bales, as against 31,985 bales and 31,992 bales returned in the corresponding and the final forecasts respectively of last year. The late variety is expected to give an yield of 28 bales this year as against 37 bales reported in the corresponding and the final forecasts of last year.

Director of Agriculture, Bengal.

DIRECTORATE OF AGRICULTURE, BENGAL.

Dated the 15th of February 1946.

Third and Final Forecast of Winter Rice Crop of Bengal for 1945-46.

(*Note.*—On an average of the five years ending 1943-44, the area under winter rice in Bengal has represented some 21·1 per cent. of the total area under winter rice in India.)

Character of the season.—Since the submission of the second forecast, the weather conditions have been quite favourable for the harvesting of the crop all over the province, excepting in the coastal districts of Bakarganj, Noakhali, Chittagong and Chittagong Hill-tracts, where there were heavy showers of rainfall in December. This inclement weather has had an adverse effect on the outturn of the crop in the above districts.

Acreage.—The total area under winter rice is estimated to be 19,470,700 acres this year, as against 20,798,300 acres (revised) of last year, as found by plot to plot crop survey conducted by the Development Commissioner, Bengal, in 1944-45. The decrease in area by 6·4 per cent. as compared with the last year's actual is mainly due to unfavourable weather conditions at the time of sowing and transplantation, in some parts of the province.

Outturn per acre.—The outturn per acre, for the province as a whole, is estimated to be 82 per cent. of the normal this year, as against 80 per cent. of the normal last year.

Total yield.—Accepting 82 per cent. as the provincial outturn, the gross yield of the crop, on the basis of the normal yield of 12·4 maunds of clean rice (husked) per acre, works out to 7,272,700 tons this year as against 7,579,100 tons (revised) of last year.

Director of Agriculture, Bengal.

Explanatory Memorandum.

The increase under "Dearness Allowance" is due to enhancement of rates.

Other extra demands are accounted for as follows :—

A—Medical Establishment.—The increase under "Pay of officers" is due to senior voted officers being posted in districts as a result of more I.M.S. officers being available for the Medical College and Schools on release from the army. The increase under "House-rent and other allowances" is due to the grant of compensatory house-allowance to the staff in Calcutta and of non-practising allowance to the Deputy Surgeon-General (Civil). The increase under "Contract contingencies" is due to further rise in the prices of articles.

B—Hospitals and Dispensaries.—The increase under "Pay of Establishment" is due to the transfer of certain contingency menials to the category of establishment menials. The saving on this account under the head "Contract contingency" has been offset by the rise in the price of materials.

Grants to Hospitals and Dispensaries.—The details are as follows :—

	Rs.
(1) Grant to the S. B. De Tuberculosis Sanatorium	2,00,000
(2) Additional grant to the Jadabpur T. B. Hospital	38,000
	2,38,000

Grants to Hospitals and Dispensaries (*charged*).—The demand is on account of an extra grant to the Albert Victor Leper Hospital.

Other items of increase under "Hospitals and Dispensaries" are due to—

(*a*) growth in the number of patients,
(*b*) higher cost of dietary, clothing and bedding, and
(*c*) higher cost of medical and surgical requisites.

C—Grants for medical purposes.—The details are as follows:—

	Rs.

(8) Lump provision for meeting unforseen demands of an emergent nature ..	11,600
Total ..	57,900

D—Medical College and Schools.—The increase under "Pay of officers" (*charged*) is due to the posting of I.M.S. officers released from the Army to the Medical College, the School of Tropical Medicine and the Campbell Medical school.

E—Mental Hospital.—The increase under "Contract contingencies" and "Other contingencies" is due to rise in the price of sundry materials.

G—Charges in England.—The increase in "Voted" expenditure is due to leave salaries of six B.M.S. officers who have been granted study leave; the increase in "Charged" expenditure is due to three cases of unforecasted leave arising during the year.

I—Provincialisation of Sadar and Subdivisional Hospitals.—The increase is due to extensive repairs of Sadar and Subdivisional Hospitals taken over by Government and to the payment of arrear liabilities in respect of these hospitals.

Loans to Municipalities.—The excess is due mainly to the following payments for which there was no provision in the Budget:—

	Rs.
Loans to the Municipalities of Howrah, Baranagore, Serampore, Baidyabati and Barrackpore for the supply of foodstuff to menials	[illegible] 3,50,000
Loan to the Dacca Municipality for improvement of sanitary arrangement ..	3,50,000
Loan to the Darjeeling Municipality for Hydro-Electric Extension Scheme ..	2,00,000

Loans under Rehabilitation Programme.—(Excavation and re-excavation of tanks and loans to artisans)—The excess is due to a post-budget decision to sanction the payment of loans for these two purposes during 1945-46.

Advances to cultivators.—The excess is due to larger payment of advances to cultivators than was originally anticipated.

Miscellaneous Loans and Advances.—The excess is mainly due to the payment of advances for the working of the Bengal Tank Improvement Act (19 lakhs) for which there was no budget provision and for larger cattle purchase loans (18 lakhs) counterbalanced by a saving of 10 lakhs under "Advance to Bengal Provincial Co-operative Bank and Multi-purposes Societies", and other minor savings.

A—Stationery supplied by other Governments.—The increase is due to heavy demand for paper in connection with Rationing and Elections.

D—Government Presses—Pay of Officers (charged).—The extra amount is required on account of the continued employment of the Superintendent, Government Printing, who was due to retire in the middle of the year.

Pay of Establishment (voted).—The increase is due to the employment of larger staff to cope with the increase in work as a result of Rationing and Elections.

Dearness allowance (voted).—The increase is due to enhancement of rates.

Explanatory Memorandum.

Under "Contributions", the increased demand under the first item is due to conversion into outright grants of advances totalling Rs. 70,44,000 paid to Calcutta Corporation up to the end of 1944-45 and to payment of further grants amounting to Rs. 53,66,000 in the current year in order to enable the Corporation to pay dearness concession to its employees. Out of the total requirement a part will be met out of savings under other heads. The present demand is in respect of the balance which cannot be thus met.

The excess under the second item is due to payment of larger "Adaptation" receipts to local bodies in consequence of an increase in these receipts.

Under "Special Development Programme", the excess is due to the following items:—

(j) Civil Supplies—(1) Directorate.—The increase under "Pay of officers" is due to further expansion of the Department of Civil Supplies. The additional demand under "Allowances, honoraria, etc." is due partly to increase in the number of officers and partly to enhancement of rates of dearness allowance. The provision under "Establishment charges payable to other Governments, Departments, etc." represents the charges payable to the Government of India, War Department, on account of the employment of Military Officers for procurement operations.

(j) Civil Supplies—(10) District Organisation.—The increase is due to expansion of the Directorate of District Distribution.

(*1A*) An application for reinstatement under sub-section (*1*) shall be sent by registered post to the employer before the expiry of a period of four months from the date of the termination of the applicant's employment in the national service or of two months from the date of the commencement of the National Service (Technical Personnel) Amendment Ordinance, 1946 (IX of 1946), whichever is later, or if a Special Tribunal, on application to it in this behalf, is satisfied that by reason of illness or other sufficient cause, the application for reinstatement could not be made before the expiry of the said period, before the expiry of such extended period as the Special Tribunal may allow.

Provided that the Special Tribunal shall not allow an extended period as aforesaid unless it is satisfied that the application therefor to it was made as early as possible.";

(*c*) after sub-section (*2*) the following sub-section shall be inserted, namely:—

"(*2A*) Where an employer terminates the employment of a person, whom under sub-section (*1*) it was his duty to reinstate, within a period of six months from the date of reinstatement, he shall, notwithstanding anything to the contrary contained in the conditions of employment, be liable to pay to the said person at the time of terminating his employment as aforesaid a sum equal to the remuneration which the said person would have earned under the terms of re-employment agreed, or fixed by the Special Tribunal, during the unexpired portion of the said period:

Provided that an employer shall not be liable to make such payment as aforesaid where the employment is terminated for the reason that the said person has been guilty of gross insubordination, habitual absence from work or any serious misconduct or has been convicted of any criminal offence:

Provided further that a person whose employment is terminated within the said period for any such reason as aforesaid may refer the matter to a Special Tribunal, and the Special Tribunal shall after due consideration decide whether or not the employer is liable as aforesaid under this sub-section; and such decision shall be final and binding on the parties.

Explanation.—Any sum required to be paid under this sub-section shall be in addition to the amount, if any, which the employer may, under the conditions of employment, be liable to pay in respect of termination of the employment without notice."

GOVERNMENT OF BENGAL.

Legislative Department.

NOTIFICATION.

No. 382L.—25th March, 1946.—The following Statement of the reasons which have moved the Governor of Bengal to enact the Bengal Cess (Amendment) Act, 1946, in exercise of the powers assumed to himself by the Proclamation, dated the 31st day of March, 1945, is published for general information:—

Statement.

Section 107A of the Cess Act, 1880, provides that the "acreage rate" basis of valuation shall be adopted in respect of any district which has been included by notification in Schedule G to the Act. There is no corresponding provision for a change from the "acreage rate" basis to the old "rental" basis of valuation by deleting the district from the list in the said schedule. Experience of the working of Chapter VIIA of the Act has shown that in many districts it does not secure a more equitable distribution of cess burden on the tenure-holders and the cultivating raiyats, which was the main object of enacting this chapter in 1934, and that there are districts in which the old procedure of valuation works more equitably. Due to this state of affairs, cess revaluation operations under Chapter VIIA have been kept pending in as many as nine districts, as the rental basis of valuation cannot be used in those districts on account of the existing provisions of section 107A.

In order to enable the Provincial Government to end the administrative deadlock created by the above explained suspension of the cess revaluation operations, it is necessary to amend the Cess Act, 1880 so as to make it fully optional to the Provincial Government to utilise in any given district either the acreage rate or the rental basis of valuation, whichever appears the more equitable.

A Bill framed with this object in view, but including also provisions designed to remove the maximum limits of cess rates, was published in a *Calcutta Gazette, Extraordinary*, dated the 22nd February, 1946, inviting objections and suggestions from the persons likely to be affected thereby. Copies of the Bill were also sent to all District Boards and a number of important associations likely to be concerned. With a view to further publicity a Press Note explaining the provisions and objects of the Bill was issued on the 20th February, 1946. After giving its careful consideration to such objections, suggestions and views as have been received, the Provincial Government has decided to omit the provisions in this previously published Bill which related to the removal of the maximum limits of cess rates. In order however to resolve the administrative difficulties explained in the first paragraph of this Statement it has become necessary to enact the remaining provisions of that Bill without delay.

To effect this urgent purpose the Governor in exercise of his legislative powers under the section 93 Proclamation has enacted the Bengal Cess (Amendment) Act, 1946.

The 20th March, 1946.

F. J. BURROWS,
Governor of Bengal.

No. 2664-F.B.—21st March, 1946.—With reference to Notification No. 2663-F.B. dated the 21st March, 1946, the undersigned is directed to publish the following Memorandum on the Budget of the Government of Bengal for the year 1946-47.

By order of His Excellency the Governor,

S. K. MUKHARJI,
Secretary to the Government of Bengal.

Memorandum on the Budget of the Government of Bengal for the year 1946-47

1. A summary, by major heads, of the Budget for 1946-47, authorised by His Excellency the Governor of Bengal in exercise of his powers under section 93 of the Government of India Act, 1935, has been published in the *Gazette* under Notification No. 2663-F.B. dated the 21st March, 1946. The object of this memorandum is to review the main features of the Budget and to explain the financial position of the Province.

2. Except where otherwise stated the figures in this memorandum are in thousands of rupees.

3. The table below shows the position at a glance.

4. **In spite of a subvention of 7 crores from the Centre the actual deficit on Revenue Account in 1944-45 amounted to 4 crores 73 lakhs. The Budget for the current year anticipated a revenue deficit of 8 crores 60 lakhs which has been reduced in the Revised to 7 crores 46 lakhs. The deficit in the Budget year 1946-47 is estimated at 9 crores 46 lakhs.**

5. The termination of the War has made it possible and in fact essential to implement immediately, as far as practicable, the Programme of Post-War Development which was in the process of formulation when the current year's Budget was authorised by the Governor. Heavy recurrent budgetary deficits have left the Province in no position to meet the cost of development projects out of her own resources. The method of financing these projects which has recently been laid down by the Government of India is, briefly, as follows. Self-financing schemes will be financed by loans and non-self-financing schemes by grants made available to the Province by the Centre. Appropriate capital heads have been opened for the exhibition of expenditure on self-financing schemes, and credit has been taken outside the Revenue Account for an equivalent amount representing the loan admissible from the Centre for meeting the expenditure. Provision for non-self-financing schemes has been made under the appropriate heads of revenue expenditure and credit has been taken under Revenue receipts for an equivalent amount representing grants from the Centre in respect of such schemes. Under this arrangement it follows that no part of the revenue deficit revealed by the Estimates for 1945-46 and 1946-47 is attributable to the Development Programme undertaken by the Province. The revenue expenditure on non-self-financing schemes and the equivalent revenue receipts from the Centre included in these estimates are—

1945-46 (Revised)	1,10,15
1946-47 (Budget)	10,58,74

Details of post-war development schemes included in the current year's Revised and next year's Budget under Revenue and Capital heads will be found in an Appendix to this memorandum.

6. According to the revised estimates for the current year, revenue receipts are expected to be about 7 crores higher than was originally anticipated. Out of this a crore and 10 lakhs represents grants from the Centre in respect of non-self-financing development schemes. The balance is accounted for by larger yield under three main heads, namely, Excise, Stamps, and Other Taxes and Duties. The increase under Excise amounts to a crore and 40 lakhs and is distributed over a number of items, the largest individual contribution being 73 lakhs under "Country Spirit". Rates of duty under "Country Spirit", "Ganja" and "Opium" were raised during the year. Stamp receipts are expected to be higher by 75 lakhs, the improvement being shared almost evenly by Non-judicial Stamps and Court fees. Under Other Taxes and Duties, the increase amounts to 3 crores 20 lakhs and is distributed as follows :—

	Increase.
Entertainment Tax	10,00
Betting Tax	30,00
Electricity Duty	15,00
Sales Tax	1,00,00
Motor Spirit Sales Tax	1,50,00
Raw Jute Tax	15,00
	3,20,00

Soon after the Budget for the current year had been authorised by the Governor, Sales Tax was enhanced from 2 pice to 3 pice in the rupee, and Petrol Tax from one anna six pies to three annas per gallon. Part of the improvement under these two items is due to enhancement of rates.

7. The table below compares the yield from Provincial taxes in the first and in the last year of the War.

	Actuals, 1939-40.	Revised, 1945-46.
Agricultural Income-tax	..	60,00

Other Taxes and Duties—

Receipts under Motor Vehicles Acts	21,31	23,02
	9,03,05	24,42,77

The increase from 9 to 24½ crores is a measure of the effort made by the Province to reduce the widening gap between revenue and expenditure.

8. Expenditure on Revenue Account is, according to the Revised, likely to be 5 crores 90 lakhs higher than the original estimate.

Out of this, a crore and 10 lakhs is due to the inclusion of development schemes set forth in the Appendix. The largest individual item included in this total is a provision of 50 lakhs for the purchase, out of surplus military stores, of equipment and sundry materials required in connection with the Programme of Post-War Development. The next important item is the reorganisation of the peace-time fire fighting services at a cost of 20 lakhs. Other important provisions are— 5½ lakhs for the training of demobilised personnel; 5 lakhs for the expansion of the Department of Fisheries; 5 lakhs for renovation of Tube-wells; 4 lakhs for the construction of police buildings; and 3 lakhs for preliminary work in connection with the establishment of a Central Live-Stock Research-cum-Breeding Station. A provision of 11¼ lakhs for the last-named scheme had been made in the original Budget but this could not be utilised owing to delay in the acquisition of land and the item has since been included in the Development Programme. The reduced estimate represents the expenditure which is likely to be incurred in the current year.

The next important factor contributing to the increase in the Revised is the enhancement of dearness concessions in the course of the year. Orders were issued in April last enhancing the rates and extending the range of dearness allowance admissible to Government employees with retrospective effect from 1st January, 1945. Increased provision on this account is distributed over almost all the heads of expenditure and amounts in the aggregate to close upon a crore.

9. Apart from the provision for development projects and the extra cost of dearness allowance, the principal items responsible for the increased expenditure in the current year are set forth below :—

An extra provision of 10 lakhs has been made under "Land Revenue" for augmenting the grant for the improvement of Government Estates.

Additions to "General Administration" include 35 lakhs for the General Election to the Provincial Legislature and 24 lakhs for grants to District Officers for the interim relief of post-war unemployment pending effective implementation of the Development Programme. Appointment of additional executive officers such as Sub-Deputy Collectors, Lawyer-Magistrates and also of staff for loan recovery work accounts for a further increase of 12 lakhs. Among other items involving extra expenditure in the General Administration Budget may be mentioned the reorganisation of the Secretariat on the basis of the Rowland Committee Report and the acquisition of a fleet of jeeps for improving touring facilities in the interior.

Under "Irrigation" an extra provision of 60 lakhs has been made for the execution of minor irrigation projects under the Rehabilitation Programme.

Larger outlay on "Grow More Food" schemes accounts for an increase of 46 lakhs under "Agriculture". Half of this is due to procurement and distribution of oilcakes on a much larger scale than was originally contemplated and the balance is due to the purchase of iron and steel for agricultural implements and the acquisition of a fleet of lorries for the transport of seeds and manures.

There is an increase of a crore and 16 lakhs under "Miscellaneous". Out of this 70 lakhs represents an accounting adjustment. Advances totalling this amount had been made to the Calcutta Corporation from time to time up to the 31st March, 1945, to enable the Corporation to meet the cost of dearness concessions to its employees. Following a decision to convert these advances into outright grants, the expenditure has been debited to this head by credit of an equivalent amount under "Loans and Advances". The balance of the increase is due to further grants to the Calcutta Corporation in the current year for the payment of dearness concessions to its employees.

The "Famine" Budget shows an increase of over a crore. This is due to continuance of emergency measures of medical relief including F. R. E. hospitals and mobile medical units throughout the current year, not for six months as originally contemplated, and also to thorough overhaul of F. R. E. hospitals which were originally designed for very temporary use.

Further progress of the Scheme of Provincialisation of Sadar and Subdivisional Hospitals and larger outlay on medical and surgical requisites have led to an increase of 14 lakhs under "Medical"; and Expenditure on "Public Health" has gone up by 25 lakhs owing to the acquisition of a larger stock of mepacrine tablets and to the continuance of epidemic control measures throughout the year as against three months originally contemplated.

Finally under "Civil Works" there is an increase of 46 lakhs. Part of this is due to recoveries from the Defence Department on account of the extra cost of maintenance of roads subject to heavy military traffic proving less than was originally anticipated. The balance is due to acquisition of tools and plant for road development projects and to items of original work on the Secretariat (4 lakhs), on construction of officers' quarters (3½ lakhs), on additional blocks and floors in Writers' Buildings and Anderson House (5 lakhs), etc.

10. As against these increased provisions is to be set off a decrease of one crore under "Extraordinary Charges". This is due principally to reduction of loss on the sale of foodgrains as a result of three main factors, viz., (*a*) smaller procurement than was originally anticipated, (*b*) fall in the average cost of procurement, and (*c*) better storage arrangements. Some reduction in expenditure has also resulted from the winding up of A. R. P. and Civil Defence measures. The net relief to the Province on this account is, however, comparatively small, because, under the arrangement in force for the allocation of poolable expenditure between the Centre and the Province, the smaller the expenditure, the larger the share of it which is debitable to Provincial revenues.

The total decrease under "Extraordinary Charges" would have been greater but for the additional expenditure involved in the expansion of the Civil Supplies Department and in the construction of storage godowns.

11. The statement below shows the original and the revised estimates of loss on the sale of foodgrains to the public:—

	Budget, 1945-46.	Revised, 1945-46.	Decrease.
(1) Loss on foodgrains other than wheat	4,50,00	1,46,00	3,04,00
(2) Loss on wheat and wheat products	1,03,00	50,00	53,00
			3,57,00

Increased expenditure on the construction of storage accommodation amounts to a crore and 12 lakhs ; and that on the expansion of the Department of Civil Supplies to a crore and 46 lakhs. The Revised also includes provision for a loss of 17 lakhs on the Boat Construction Programme in connection with which no loss had been anticipated in the original estimate.

12. The Budget for the current year assumed a net capital outlay of 23 crores on the procurement and distribution of foodgrains, sugar, salt and standard cloth ; as well as on the construction of boats. In other words, it was assumed that the gross outlay on these schemes would be 23 crores in excess of sale proceeds realised. It now appears that the outlay will be fully covered by sale proceeds with the result that the net expenditure will be nil. This is due to smaller outlay on procurement operations and abandonment of the boat building programme, coupled with larger receipts from the sale of foodstuff and standard cloth than were originally anticipated.

13. Transactions in the Debt Deposit Section of the Budget have been readjusted in view of the fact that requirements for capital outlay will be 23 crores less than was originally assumed. Net receipts under Debt heads which amounted to 32 crores in the original estimate have, in the Revised, been reduced to 6 crores only.

14. Against a closing balance of 2 crores 24 lakhs according to the Revised, the Province will have some large debts outstanding on the 31st March, 1946, the most important being a cash credit advance of 20 crores from the Imperial Bank of India, a Ways and Means Advance of 7 crores from the Government of India and Treasury Bills of the value of 7 crores and half. A detailed review of the debt position will be found towards the close of this memorandum.

15. The Budget for the coming year includes provisions for development projects totalling 11 crores 59 lakhs. Out of this one crore is on account of self-financing schemes and is debitable to Capital heads. The cost of non-self-financing schemes debitable to revenue is 10 crores 59 lakhs as already explained in paragraph 5. Under the financing arrangement described in that paragraph, credit has been taken under revenue receipts for grants from the Centre amounting to 10 crores 59 lakhs.

16. If receipts from the Centre on account of development projects are left out of account the basic revenue for the current year and for 1946-47 compares as follows :—

Revised, 1945-46	.. ..	34,71,43
Budget, 1946-47	.. ..	30,60,10
	Decrease ..	4,11,33

The decrease is due to reduced yield under five main heads, namely, Income-tax, Excise, Stamps, Forest and Other Taxes. According to the latest information received from the Government of India, Bengal's share in Income-tax will drop by 60 lakhs in the coming year owing to the decrease in general receipts from this source. Receipts from Agricultural Income-tax too are expected to be lower by 10 lakhs owing to a fall in the prices of agricultural produce on the basis of which assessment is made. Excise receipts will fall by a crore and 80 lakhs as a result of reduced consumption of liquor and other excisable articles, owing to the repatriation of military personnel and imported labour. Stamp revenue which has reached a very high level this year is expected to go down by 30 lakhs in the coming year and a similar decline in Forest receipts is anticipated as a result of the stoppage of further orders for timber from the Supply Department. Under "Other Taxes" reduction in the yield from Petrol Tax, of approximately a crore, is expected to follow the cessation of military activities unless civilian consumption should increase through easing of supplies far beyond present anticipations. A further loss of revenue amounting to 8 lakhs will result from the abolition of the highly regressive Tax on Professions, which the meagre yield and difficulties of administration no longer make it worthwhile to retain. On the other hand it has been assumed that an extra 50 lakhs will be received under "Sales Tax" in the coming year. The net result of all these factors is a decrease of 70 lakhs under "Other Taxes."

17. The total revenue expenditure according to the Budget for 1946-47 amounts to 50 crores 65 lakhs out of which 10 crores 59 lakhs is on account of non-self-financing schemes included in the Development Programme. Details of these schemes will be found in the Appendix. It will be observed that a considerable portion of the provision relates to the construction of roads and buildings. A sum of 67½ lakhs has been provided for the construction and improvement of national and provincial highways and major district roads while the provision for new buildings amounts to 3 crores, including 30 lakhs for the departmental construction of police buildings. The cost of land acquisition is included in these figures. There is also a provision of 25 lakhs for grants to local bodies to enable them to take up urgent public works having high employment value.

Among other important items included in the Revenue section of the Development Programme may b mentioned 70 lakhs for water supply, 50 lakhs for the purchase of surplus military stores, 30 lakhs for the reorganisation of the Co-operative Department, 30 lakhs for the re-excavation of derelict irrigation tanks, 20 lakhs for self-propelled water-craft for police forces in riverine districts and 15 lakhs for the re-housing of bustee-dwellers. For the settlement of demobilised personnel on land, 10 lakhs has been provided in the Agriculture Budget in addition to 40 lakhs under "Civil Works". Similarly for the establishment of a Central Live-Stock Research-cum-Breeding Station there is a provision of 16½ lakhs under "Agriculture" and of 45 lakhs under "Civil Works". Schemes of educational development include 15½ lakhs for the training of staff for Primary Training Schools, 10 lakhs for the encouragement of post-graduate research and 7½ lakhs for the improvement of engineering colleges. Among "Medical" schemes may be mentioned a provision of 12½ lakhs for subsidy to medical practitioners and of 11 lakhs for the opening of a T. B. Hospital. Important provisions in the "Industries" section include 14 lakhs for the expansion of the Fisheries Department and 15 lakhs for participation in the Central Government's scheme for the manufacture of fertilisers. Provisions amounting to 10 lakhs each have been made for the improvement of the live-stock industry and the development of community listening in rural areas.

18. With this rapid expansion in the Development Programme, the basic estimates of revenue expenditure on other heads in 1946-47 is some 2 crores lower than the Revised for the current year. This is due to reduced expenditure under four main heads, viz., General Administration, Agriculture, Famine and Miscellaneous.

The "General Administration" Budget omits the special provision of 35 lakhs for general elections and makes greatly reduced provision for post-war unemployment relief in view of the Development Programme adopted for the coming year. On the other hand, it provides for a full year's expenditure on account of the Ministry and the Legislature for which no provision has been included in the Revised. The net effect is a decrease of 43 lakhs.

A decrease of 32 lakhs occurs under "Agriculture" as a result of smaller outlay on emergent "Grow More Food" projects. With the systematisation of agricultural development the need for emergent schemes of this nature will steadily decrease.

The "Famine" Budget shows a decrease of 70 lakhs owing partly to contraction of gratuitious relief as a result of gradual improvement in the situation, and partly to omission of the provision made in the Revised for thorough overhaul of F. R. E. Hospitals.

Decrease to a similar extent occurs under "Miscellaneous" owing to omission of the special provision of 70 lakhs included in the current year's Revised by way of an accounting adjustment for the conversion of certain advances to the Calcutta Corporation into outright grants.

A saving of about a crore and a quarter which results in the coming year from the winding up of Civil Defence measures, reduction of the Civic Guard and the Home Guard organisations and discontinuance of the Emergency Area Bonus is more than counterbalanced by unexpected increase in net cost of boat building operations. It was assumed when these operations started that the outlay would be fully recovered by the sale of boats. Unfortunately, this assumption has not turned out to be correct and the net cost of the boat building programme, which has now been discontinued, is estimated in the Budget at a crore and 56 lakhs.

19. Under "Capital" expenditure, as already explained, has been included the cost of self-financing development schemes for which loans will be advanced by the Government of India. The largest of these schemes is the Moor Reservoir Project which is designed to irrigate an area of 600,000 acres in the districts of Birbhum, Murshidabad and Burdwan. The total cost of the scheme is close upon 7½ crores out of which 70 lakhs has been provided in the coming year. The other provisions for self-financing schemes included in the Budget are 25 lakhs for the establishment of seed multiplication farms, and 6 lakhs for the development of coastal and estuarine fisheries.

20. The Debt heads allow for net receipts amounting to 10 crores, out of which one crore is provided by the Central Government's loan on account of self-financing development schemes and 8 crores by borrowing in the shape of Treasury Bills to cover the revenue deficit.

21. The following is a statement of the various loans which will remain outstanding, according to these estimates, on the 31st March, 1946, and 31st March, 1947 :—

Loans from the—	31st March, 1946.	31st March, 1947.
(*a*) Public :		
Treasury Bills	7,50,00	15,50,00
(*b*) Imperial Bank :		
Cash Credit Advance	19,88,19	19,88,19
(*c*) Government of India :		
(*i*) Ways and Means Loan, 1944	7,00,00	7,00,00
(*ii*) Civil Defence Loans	2,56,99	1,77,07
(*iii*) "Grow More Food" Loans	26,85	14,35
(*iv*) Loan for closing Damodar Bund Breach	66,31	66,31
(*v*) Loan for distribution of iron and steel to the agriculturists in Bengal	10,00	10,00
(*vi*) Loan for Development Schemes	4,94	1,05,77
Total	38,03,28	46,11,69

22. It may be added that there will be owing to the Province on 31st March, 1946, and 31st March, 1947, loans totalling 4½ and 5½ crores respectively. The amounts of agricultural loans (including cattle purchase loans) comprised in the foregoing totals are 2½ crores and 2 crores respectively. It would be optimistic to count on the whole of this sum as recoverable but no estimate can yet be made of the net amount to be written off.

23. Out of the outstanding debt on the 31st March, 1947, 24 crores is accounted for by borrowings to cover the cumulative revenue deficit from 1943-44 to 1946-47, as shown below :—

Year.	Revenue deficit.
1943-44 (Actuals)	2,73,67
1944-45 (Actuals)	4,73,14
1945-46 (Revised)	7,45,58
1946-47 (Budget)	9,46,35
Total	24,38,74

The remainder of the debt is covered by assets in the form of stocks and closing balance.

24. The recurrence of heavy revenue deficits year after year, in spite of the utmost efforts made by the Province to help itself, leaves it no other course than to appeal to the Centre for suitable measure of *ad hoc* relief. Such relief has been granted in the past and will, it is earnestly hoped, continue to be available until the economy of the Province has had time to recover from the shattering impact of the War and the Famine.
